

## RF WALL MOUNT DIMMER AND RECEIVER

**EP-REMOTE DIMMER**

EPIC SKY's Rotary dual color LED controller is a RF wall mounted control with switch, color temperature and brightness adjustment functions for dual color (warm white and cool white) LEDs. The rotary dimmer controller features accurate and smooth color temperature adjustment as well as dim your lights from 0.1% to 100% without any flickering. Double clicking the rotary knob enables the controller to switch from brightness dimming to color temperature adjustment. Each controller can control 1 zone with endless receivers.

### SPECIFICATIONS:

Output Signal:	RF Signal
Power Supply:	3V (CR2032)
Power Consumption:	10mA
Operating Temperature:	0-40°
Relative Humidity:	8%-80%
Dimensions:	3.375"W x 3.375"H x 1.75"D 85.75mm W x 85.75mm H x 44.45mm D

### KEY FEATURES

- Rotation sensitive
- Glass interface
- Compatible with all universal RF receivers
- Controls CCT color
- Control 1 zone of RF receiver
- IP20 Waterproof grade

### OPERATION

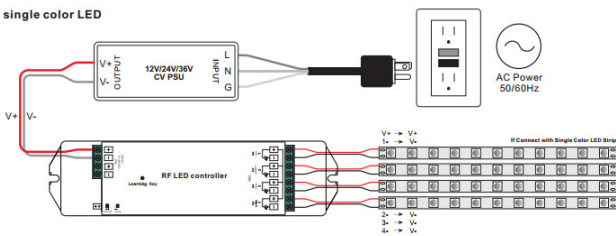

How to Pair with RF receivers:

1. Click "Learning Key" on RF receiver and release
2. Rotate or click the knob
3. LED lights connected with the RF receiver will flicker once
4. The receiver is paired with the remote successfully

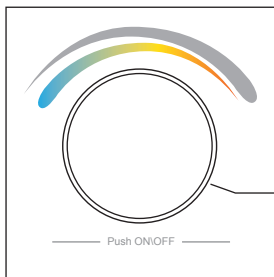

### How to delete the pairing:

Press and hold down the "Learning Key" on the receiver for over 3 seconds until connected LED lights flicker twice this means the pairing has been deleted successfully.

With single color LED

Rotate knob counterclockwise:  
1. Decrease light intensity from 100% to 1% ("brightness mode").  
2. Change color temperature from warm white to cool white (dual color mode)

Rotate knob clockwise:  
1. Increase light intensity from 1% to 100% ("brightness mode").  
2. Change color temperature from cool white to warm white (dual color mode)

Click the knob to switch ON/OFF. Press and hold down to adjust brightness to 100%. Double click the knob to switch between dual color mode and brightness mode.

### ORDERING

**MODEL**  
**EP-DIMMER KIT**

**DESCRIPTION**  
includes:  
EP-REMOTE Rotary mounted control  
and EP-DIMMER & RECEIVER

**EP-DIMMER KIT**
